**Remarks:**

The Bonds/Certificates of Deposit Risk Level stated in this website is determined according to the combination of quantitative and qualitative risk factors, mainly including price volatility, issuer risk and liquidity:

1 = low risk. Minimal chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate minimal price fluctuations over short periods of time.

2= low to medium risk. Low chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate moderately low level of price fluctuations over short periods of time.

3 = medium risk. Moderate chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate moderate level of price fluctuations over short periods of time.

4 = medium to high risk. Moderately high chance of losing a significant portion of your capital over the term of the investment. Expected to demonstrate moderately high level of price fluctuations over short periods of time.

5 = high risk. High chance of losing a significant portion of your capital over the term of the investment. Expected to demonstrate high level of price fluctuations over short periods of time.
