A KEY WAY TO LEAD THE LIFE TO THE FULLEST

A delighted life comes with the attainment of numerous life goals with the accumulated wealth you built up.

How does the Income Goal Insurance Plan work?

Income Goal Insurance Plan (the "Plan" or the "Policy") is a long-term insurance plan with savings element. It is designed to build up savings by participating in the Plan for a pre-set period of 10 or 15 years at your choice. You will then receive a stream of income in the form of Monthly Annuity Payment¹ for 10 years to achieve your personal aspirations. A Special Bonus² may become payable as an additional source of funding at the beginning of the Annuity Period.

Throughout the Policy Term, if the Life Insured passes away, the Death Benefit payable to the Beneficiary(ies) plus the total amount of Monthly Guaranteed Annuity Payment we have paid to the Policyholder (if any) will be at least equal to 101% of the Total Premiums Paid⁵.

The Plan is not equivalent or similar to any kind of deposit.

WHAT CAN YOU GET DURING ANNUITY PERIOD?

- Guaranteed Cash Value (the value payable under certain circumstances such as surrender or maturity)
- Dividends (non-guaranteed and applicable if cash payment option is elected)
- Monthly Annuity Payment¹
- Special Bonus² (non-guaranteed and applicable if lump sum withdrawal option is elected)

Assumption:

The below diagram is illustrated based on monthly payment option with Special Bonus² withdrawal.

Note:

The above diagram is for illustrative purpose only. Please refer to Product Summary and Policy Provisions for details.

HOW MUCH PROTECTION CAN YOU ENJOY?

Life cover³

The Life Insured can enjoy life protection during the Policy Term. In the unfortunate event of death of the Life Insured, the Beneficiary(ies) will receive the Death Benefit (please refer to Product Summary for details).

Extra protection

The following Supplementary Benefits are embedded in the Basic Plan of the Policy, subject to eligibility, with no additional premiums required:

- **Additional Accidental Death Benefit⁶**
In the unfortunate event that the death of the Life Insured results from an accident before the end of the Policy Term or the age⁷ of 80 (whichever is earlier), an additional 30% of the Total Premiums Paid⁵ will be paid to the Beneficiary(ies) in addition to the Death Benefit payable under the Policy.
 - **Payor's Benefit⁸ (not applicable to corporate Policyholders and to single premium policy)**
You can take out a Policy to cover your child whose Insurance Age⁹ is 18 or under. If the Policyholder was to die or become temporarily disabled for a continuous period of 183 days, the future premiums will be waived until the Policyholder recovers or the Payor's Benefit⁸ terminates (whichever is earlier).
 - **Terminal Illness Benefit⁶**
The Death Benefit will be paid in advance if the Life Insured is diagnosed with a terminal illness before the end of the Policy Term or the age⁷ of 65 (whichever is earlier) and such illness is likely to result in death within one year.
 - **Unemployment Benefit¹⁰ (not applicable to corporate Policyholders and to single premium policy)**
If the Policyholder has become unemployed for at least 30 consecutive days before the Insurance Age⁹ of 65, the Grace Period for payment of your premiums will be extended up to 365 days, during which the Life Insured will still enjoy the Policy's full protection. For details, please refer to the Policy Provisions.
- The following Supplementary Benefit is optional with additional premiums required:
- **Critical Illness Select (Additional Payment)¹¹ (not applicable to single premium policy)**
You can add this optional benefit at an extra cost which will cover the Life Insured until the age⁷ of 65. The Plan will pay the Critical Illness Select's benefit amount if the Life Insured is diagnosed with one of the covered illnesses listed in the additional protection leaflet. Health questions are required when applying for this benefit¹².

Hassle-free Application

Policy approval is generally guaranteed⁴ and medical examinations are not required.

EXAMPLES

The data below is for examples 1 and 2 and the amounts shown are in Hong Kong dollars (HKD).

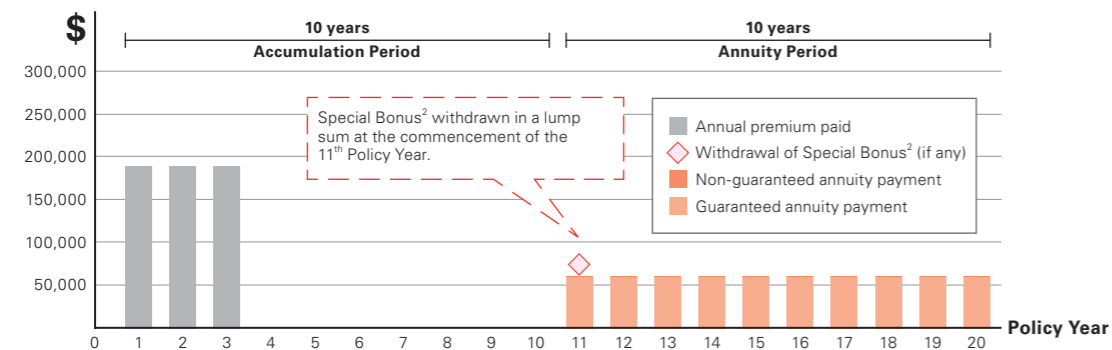

Insurance Age ⁹ of Life Insured	: 35		
Premium payment period	: 3 years	Total Premiums Paid ⁵	: 567,000
Accumulation Period	: 10 years	Annuity Period	: 10 years
Annual premium	: 189,000	Monthly Guaranteed Annuity Payment	: 5,000

Assumptions for examples 1 and 2

- All premiums are paid in full when due during the premium payment period.
- No withdrawal of accumulated dividends and interest (if any) under the Policy and no adjustment affecting the dividends has been made during the Policy Term.
- The current interest rate on accumulated dividends and interest is 3.5% p.a.. This interest rate is not guaranteed and may be adjusted by the Company at its discretion from time to time. The actual interest rate may be lower than or higher than 3.5% p.a..

Example 1 – Withdrawal of Special Bonus²

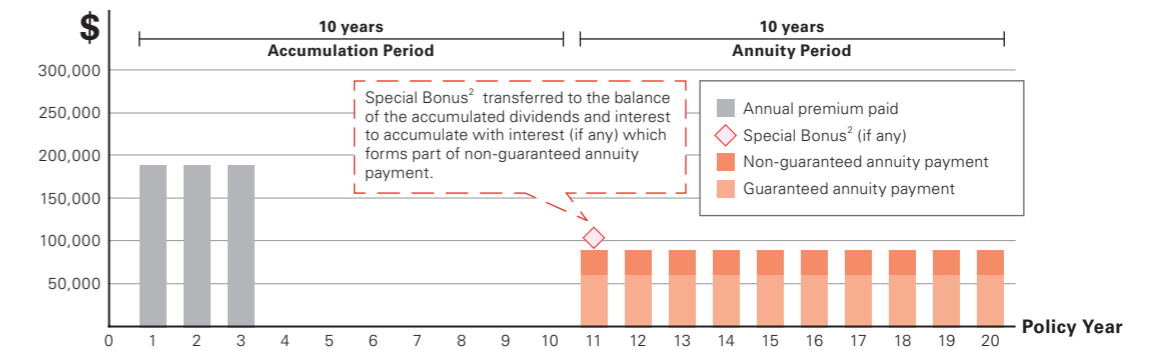

- Withdraw the Special Bonus² in a lump sum of **HKD237,410**
- Monthly Annuity Payment¹ will be **HKD5,013**
(Monthly Guaranteed Annuity Payment HKD5,000 + Monthly Non-guaranteed Annuity Payment HKD13)
- Receive all Monthly Annuity Payment¹ in cash
- Total Monthly Annuity Payment¹ received will be **HKD601,560**

Example 2 – No withdrawal of Special Bonus²

- No withdrawal of Special Bonus²
- Monthly Annuity Payment¹ will be **HKD7,355**
(Monthly Guaranteed Annuity Payment HKD5,000 + Monthly Non-guaranteed Annuity Payment HKD2,355)

- Scenario 1:**
- Receive all Monthly Annuity Payment¹ in cash
 - Total Monthly Annuity Payment¹ received will be **HKD882,576**

- Scenario 2:**
- Accumulate all Monthly Annuity Payment¹ under the Policy
 - Accumulated Monthly Annuity Payment¹ at policy maturity will be **HKD1,051,891**

Notes for examples 1 and 2:

- The amount of the Monthly Non-guaranteed Annuity Payment is not guaranteed and may vary from time to time. The actual future amount may be lower than or higher than that illustrated above.
- The figures as shown in the above example are subject to rounding adjustment and are for illustrative purpose only. You should refer to your insurance proposal for illustrated figure and details.

Guaranteed Cash Value	Guaranteed Cash Value is calculated by reference to the Monthly Guaranteed Annuity Payment and the tabular cash value rates shown in the Policy Schedule. Such rates, and therefore the Guaranteed Cash Values will vary by Policy Year.

Special Bonus²

The Special Bonus² (if any) is non-guaranteed. It will be declared, at the Company's absolute discretion, at the commencement of the Annuity Period provided that all premiums are paid when due during the premium payment period. The declared Special Bonus², if any, can either be (i) withdrawn from the Policy in one lump sum at the commencement of the Annuity Period; or (ii) transferred to the balance of the accumulated dividends and interest to accumulate with interest if any, at an interest rate as determined by the Company from time to time.

During the Accumulation Period, no Special Bonus² is payable unless any of the following events occurs and the Company will pay the Special Bonus² (if any) at its absolute discretion under the Basic Plan:

- (a) death of the Life Insured; or
- (b) surrender of the Policy; or
- (c) lapse or termination of the Policy.

The Company will update you the amount of the Special Bonus² (if any) of each Policy Anniversary on the respective annual statement during the Accumulation Period. Such amounts as shown on the annual statement(s) may be lower or higher than those illustrated on the earlier annual statement(s) issued. Please refer to section "Key risks - Non-guaranteed benefits" for the details of key risk factors.

Annual Dividend

Annual dividend, if any, are not guaranteed and are payable on each Policy Anniversary throughout the Policy Term at our absolute discretion, provided that all premiums are paid before the expiry of the Grace Period. The amount of annual dividends will not change once declared.

You may receive such annual dividends, if any, by the following means:

- accumulate in the Policy with interest, if any; or
- take out as cash.

The annual dividends and interest, if any (earned on any accumulated dividends and interest and any accumulated Monthly Annuity Payment¹) are not guaranteed.

The Monthly Non-guaranteed Annuity Payment is derived from the accumulated dividends and interest and projected dividends (if any). The amount of the accumulated dividends and interest (if any) after each Monthly Non-guaranteed Annuity Payment will gradually decrease with the intention that it will be reduced to zero at the end of the Annuity Period. Please refer to section "Key risks - Non-guaranteed benefits" for the details of key risk factors.

IMPORTANT NOTES

Cooling-off period

The Income Goal Insurance Plan is a long-term life insurance plan with a savings element. Part of the premium pays for the insurance and related costs including but not limited to policy acquisition, maintenance and claims costs.

If you are not satisfied with the Policy, you have a right to cancel it and obtain a refund of any premium(s) and levy(ies) paid, subject to any market value adjustment (applicable to single premium policies) (see section below for details of market value adjustment), by giving written notice. To cancel, you must sign on such notice, return the Policy (if received) and ensure that such notice and the Policy are received directly by the office of HSBC Life (International) Limited at 18/F, Tower 1, HSBC Centre, 1 Sham Mong Road, Kowloon, Hong Kong within the Cooling-off Period (that is, 21 days after the delivery of the Policy or issue of a Notice informing the availability of the Policy to you or your representative, whichever is earlier).

After the expiration of the Cooling-off Period, if you cancel the Policy before the end of the Policy Term, the projected Net Cash Value¹⁵ that you receive may be less than the total premium you have paid.

Market value adjustment for single premium policy

During the Cooling-off Period, the single premium policy is subject to market value adjustment, which refers to the amount of the shortfall (if any) by which the value of investment for the single premium at the time when the cancellation notice on the Policy is received by the Company has fallen below the amount of the single premium paid.

Suicide

If the Life Insured commits suicide, within one year of the Issue Date or from the effective date of reinstatement, whichever is later, whether sane or insane, the Company's liability will be limited to the amount of premiums paid to the Company less any amount paid by the Company to you since the Policy Date. Please refer to Policy Provisions of the Basic Plan for detailed terms and conditions.

Surrender Benefit	<p>Guaranteed Cash Value plus the following:</p> <ul style="list-style-type: none"> • Accumulated dividends and interest (if any); • Plus accumulated Monthly Annuity Payment¹ (if any) (if surrender is made during the Annuity Period); • Plus Special Bonus² (if any) (if surrender is made during the Accumulation Period); • Less any Indebtedness¹⁶ <p>If you surrender before end of the Policy Term, the amount you get back under this Policy may be less than the total premiums you have paid.</p>
Death Benefit	<ul style="list-style-type: none"> • During the Accumulation Period, Death Benefit payable is the higher of: <ul style="list-style-type: none"> – 101 % of the Guaranteed Cash Value; and – 101 % of the Total Premiums Paid⁵ for the Basic Plan, at the date of death of the Life Insured, plus any accumulated dividends and interest and any Special Bonus², less any Indebtedness¹⁶. • During the Annuity Period, Death Benefit payable is the higher of: <ul style="list-style-type: none"> – 101 % of the Guaranteed Cash Value; and – 101 % of the Total Premiums Paid⁵ for the Basic Plan, less any total amount of Monthly Guaranteed Annuity Payment paid, at the date of death of the Life Insured, plus any accumulated Monthly Annuity Payment¹ and any accumulated dividends and interest less any Indebtedness¹⁶.
Death Benefit settlement	<p>Based on the written instruction¹⁴ of the Policyholder, the Beneficiary(ies) will receive:</p> <ul style="list-style-type: none"> • the Death Benefit in one lump sum payment; or • the unpaid Monthly Annuity Payment¹ until the end of the Annuity Period (this option is only applicable if it is elected during Life Insured's lifetime and the death of the Life Insured occurs during the Annuity Period)
Embedded Supplementary Benefits (no additional premiums required)	<p>Additional Accidental Death Benefit⁶, Payor's Benefit^{8^}, Terminal Illness Benefit⁶, Unemployment Benefit^{10^}</p> <p>[^] not applicable to corporate Policyholders and to single premium policy</p>
Optional Supplementary Benefits (with additional premiums required)	<p>Critical Illness Select (Additional Payment)¹¹ (not applicable to single premium policy)</p>

The contents in this Product Brochure are for reference only. You should read this document in conjunction with the respective insurance proposal and Policy Provisions for details.

Policy Loan

You may apply for a Policy Loan before the Annuity Period provided that the amount borrowed (including any previous unpaid borrowed amount) does not exceed 90% of the Net Cash Value¹⁵ before Indebtedness¹⁶. You will be advised of the rate of interest determined by the Company which may change from time to time. Consequently, the value payable under certain circumstances such as surrender or maturity will be reduced. When the Policy Loan with accrued interest exceeds the Net Cash Value¹⁵ before Indebtedness¹⁶, the Policy may lapse.

Please be reminded that any Indebtedness¹⁶ on this Policy outstanding at the time of any payment of Annuity or Death Benefit claim shall be deducted from the amount otherwise payable under this Policy. The Company's claim for any Indebtedness¹⁶ shall be prior to any claim of the Policyholder or the Beneficiary(ies) or the assignee(s) or other persons.

Tax reporting and financial crime

The Company may from time to time request information from you regarding you and your Policy for the Company and other members of the HSBC Group to meet certain obligations to legal or regulatory bodies and government or tax authorities in Hong Kong and overseas. If you fail to provide to the Company information that is requested from you or if you present a financial crime risk to a member of the HSBC Group, such consequences as set out in your policy terms include that the Company may:

- Take such actions as are necessary to enable it or a member of the HSBC Group to meet its obligations;
- Be unable to provide new, or continue to provide all of the services to you;
- Be required to withhold payments or benefits that would otherwise be due to you or your Policy and permanently pay those over to tax authorities; and
- Terminate your Policy.

Should any benefits or payments be withheld or the Policy be terminated by the Company, the amount you get back plus the total amount you have received before policy termination (if any) may be less than what you have paid. The Company recommends that you seek your own independent professional advice on your tax liabilities and tax position in relation to your Policy.

Termination conditions

The Company has the right to terminate the Policy under any of the following circumstances,

- If you cannot make the overdue premium payment by the end of the Grace Period; or
- The Policy Loan with accrued interest exceeds Net Cash Value¹⁵ before Indebtedness¹⁶; or
- We reasonably consider that by continuing the Policy or the relationship with you we may break any laws or the Company, or a member of the HSBC Group, may be exposed to action censure from any authority; or
- If the Company has the right to terminate pursuant to the terms of any Supplementary Benefits.

Please refer to Policy Provisions for detailed terms and conditions on termination.

Applicable laws

The laws governing the Policy are the laws of Bermuda. However, in the event of any dispute arising in the Hong Kong SAR, the non-exclusive jurisdiction of the Hong Kong SAR courts will apply.

Eligibility

The Plan is generally available to anyone who is between 15 days after birth to Insurance Age⁹ of 65. The Plan is subject to the relevant requirements on nationality and/or addresses and/or residency of the Policyholder and/or Life Insured as determined by the Company from time to time.

Policy currency

The Plan is available in Hong Kong dollars and US dollars. Both premiums and benefits can be paid in currencies other than the policy currency. Please refer to section "Key risks - Policy currency risk" for the details of key risk factors.

Missing payment of premium

There is a 30-day Grace Period for premium payments that are due. If you cannot make the payment by the end of the Grace Period, the non-forfeiture option which you have selected will then take effect. If no non-forfeiture option is elected, an Automatic Premium Loan will be granted to cover the unpaid premium provided that the Non-forfeiture Value¹⁷ is greater than the amount of unpaid premium. Interest will apply on such loan at a rate determined by the Company which may change from time to time. When the Non-forfeiture Value¹⁷ is not enough to cover the unpaid premium, the Policy will lapse and the amount you get back may be significantly less than what you have paid.

The Monthly Annuity Payment¹ will only be paid if all premiums due up to the relevant Monthiversary have been fully paid.

KEY RISKS

Credit and insolvency risks

The product is an insurance policy issued by the Company. You are subject to the credit risk of the Company. Your premiums paid will form part of the Company's assets. You do not have any rights or ownership over any of those assets. Your recourse is against the Company only.

Non-guaranteed benefits

The scales for calculating dividends and Special Bonus² (if any) are not guaranteed and are determined by the Company from time to time.

The Monthly Non-guaranteed Annuity Payment is mainly derived from the accumulated dividends and interest, any Special Bonus² and projected dividends. Any adjustment affecting the dividends and Special Bonus², which may include but not limited to withdrawals of any accumulated dividend and interest and/or Special Bonus², change of dividend scale or Special Bonus² scale, investment return assumptions or applicable accumulated interest rate on dividends, will trigger re-calculation of the Monthly Non-guaranteed Annuity Payment. The interests earned on the accumulated dividends and interest, and accumulated Monthly Annuity Payments¹ are determined based on an interest rate which is not guaranteed and may be adjusted by the Company at its discretion from time to time.

Whether dividends and Special Bonus² are payable and the size of the dividends and Special Bonus² to be paid depend on how well the Company has performed with regard to investment returns on the assets supporting the policies, as well as other factors including but not limited to claims, lapse experience, expenses, and the long term future performance outlook. The key risk factors are further described below:

- **Investment risk factors** – The investment performance of the assets supporting the policies could be affected by changes in interest rate and its outlook (which affect both interest earnings and values of assets), fluctuations in prices of growth assets and various market risks including but not limited to currency risk, credit spread and default risk.
- **Claims factor** – The actual experience of mortality and morbidity is uncertain which may lead to a higher than expected claim or living benefit payment and impact the overall performance of the product.
- **Persistency factor** – The actual experience of policy surrender (full or partial) and policy lapse is uncertain, and therefore it has impacts on both the current performance and future return of the portfolio of the policies.
- **Expense factor** – The actual amount of any direct (e.g. commission, underwriting, policy acquisition and maintenance expenses) and indirect expenses (e.g. general overhead costs) incurred and apportioned to the group of policies may be higher than expected and impact the overall performance of the product.

Risks from the delay or missing the payment of premiums due

Any delay or missing of the payment of premiums due may lead to policy lapse and the amount, if any, you get back may be significantly less than what you have paid.

Risks from surrender

If you surrender the Policy in early years, the surrender proceeds to be received under the Policy may be significantly less than the premiums paid.

Liquidity risk

This Policy is designed to be held for the entire Policy Term. Should you have liquidity needs for any unexpected events, you may apply for a Policy Loan or surrender the Policy in full or in part subject to the respective policy terms, however this may cause the Policy to lapse or to be terminated earlier than the original Policy Term, and the amount (if any) you get back may be less than the premiums paid. You may also apply for withdrawal of any amounts that are accumulated within the Policy, but the amount available for withdrawal is not guaranteed. Any partial surrender, Policy Loan, accrued loan interest and withdrawal will reduce the Death Benefit and Net Cash Value¹⁵. Any partial surrender will reduce the Special Bonus². Consequently, the value payable under certain circumstances such as surrender or maturity will be reduced.

Inflation risk

Cost of living is likely to be higher in the future than it is today due to inflation, therefore you or your assigned Beneficiary(ies) may receive less from the Policy in real terms in the future even if the Company meets all of its contractual obligations.

Policy currency risk

You are subject to exchange rate risks. If your plan is denominated in currencies other than local currency, or, If you choose to pay premium or receive benefit in currencies other than the policy currency(ies), the actual amount paid or received by you will be subject to change according to the prevailing exchange rate between the policy currency and the local / payment currencies. The fluctuation in exchange rates may have impact on the amount of payments including but not limited to premium payments, levy payments and benefit payments.

MORE ABOUT PARTICIPATING POLICY

Participating policy

Policies under the Plan are participating policies which consist of both the guaranteed benefits and non-guaranteed benefits. The non-guaranteed benefits comprise the policy dividends which allow Policyholders to participate in the financial performance of the life insurance operation. The policy dividends, if any, are in form of (i) annual dividends which are declared by the Company on an annual basis. Once declared, the amount of annual dividend for the year becomes vested and will be credited to your Policy; and (ii) Special Bonus² (if any) which is a one-off entitlement declared at a pre-determined Policy Year or upon early termination of the Policy (e.g. death, surrender etc.) before the pre-determined Policy Year. The amount of Special Bonus², if payable, may change from time to time based on the performance over the entire period before such declaration as well as the prevailing market condition and the actual amount will not be determined until it is payable. Please refer to page on "Product Summary" above for more details of dividends and Special Bonus².

The policy dividends (including annual dividends and Special Bonus²) are not guaranteed, whether they are payable and the size of the dividends to be paid depend on how well the Company has performed with regard to investment returns on the assets supporting the policies, as well as other factors including but not limited to claims, lapse experience, expenses, and the long term future performance outlook. Please refer to section "Key risks - Non-guaranteed benefit" for the details of key risk factors. If the performance over the long term is better than the assumed level, then dividends paid would increase and if performance is worse than the assumed level then dividends paid would reduce.

The key feature of participating policies over other forms of insurance policies is that in addition to the guaranteed benefits receivable, Policyholders will also benefit from additional dividend payments if the insurance company's performance is better than that required to support the guaranteed benefits. The better the performance, the greater the dividend payments, and, conversely, the worse the performance, the lower the dividend payments.

Dividend philosophy

The Company conducts regular review on the level of dividends payable to Policyholders. Both the actual performance in the past and also management's outlook of the long-term future performance will be assessed against the assumed level, and where variances arise, gains and losses will be shared with Policyholders in a fair and equitable manner through the adjustment of dividend scales.

When considering the adjustment of scales for dividends and Special Bonus², the Company also operates a smoothing philosophy in order to maintain a more stable payout to Policyholders, so the level of dividends will only be changed if the actual performance is significantly different from the assumed level over a period of time or if management's expectation of the long-term future performance changes substantially.

In order to ensure the fairness between Policyholders of the Plan, the Company will carefully consider the experiences of different groups of policies (e.g. different products, currencies, issue years etc.) so that each group of policies will receive a fair return reflecting mostly its own performance. To balance the interest between Policyholders and shareholders, a dedicated committee is established to provide independent advice on the management of the participating policies and the determination of dividends.

Investment policy and strategy

The Company follows an asset strategy that:

- i) Helps to ensure that we can meet the guaranteed benefits that we have committed to you;
- ii) Delivers to you competitive long-term returns through the non-guaranteed dividends and Special Bonus²; and
- iii) Abides by a pre-defined set of risk tolerance.

The assets supporting the participating policies predominantly consist of fixed income assets issued by corporate entities with good credit quality (average A-rated or above) and long-term prospects. Growth assets, including equity-type investments and alternative investments such as property, private equity and hedge fund, as well as structured products including derivatives, are utilized in order to deliver returns reflecting real economic growth in the long run.

Our investment portfolios are well diversified in different types of assets, and are invested in different geographical markets (mainly Asia, US and Europe), currencies (mainly HKD and USD) and industries. The assets are carefully managed and monitored according to a pre-defined set of risk appetite.

Target asset allocation

Asset type	Allocations%
Fixed income	60% - 100%
Growth assets	0% - 40%
- Equities	0% - 30%
- Alternative investments	0% - 30%

The exposure to growth assets is normally within the range of 0% to 40% during the Accumulation Period and the exposure will be reduced at the absolute discretion of the

Company during the Annuity Period in order to achieve a relatively stable investment return.

There could be slight deviation from the above range due to market fluctuation.

Actual allocations will take into consideration past investment performance of the assets supporting the policies, prevailing market conditions and future outlook, and the guaranteed and non-guaranteed benefits of the policies. This includes assessing factors such as risk tolerance and real economic growth over the appropriate time horizon.

Accumulation interest rate

Policyholders can choose, amongst other options, to leave the dividends, annuity payments and Special Bonus² in the Plan to accumulate with interests (if any). The rates of interests are not guaranteed and will be determined by the Company from time to time. We review such accumulation interest rates regularly with reference to the portfolio bond yields, prevailing market conditions, outlook on bond yields, and the likelihood of Policyholders leaving their payment for accumulation.

The Policy in determining the dividends and accumulation interest rates may be reviewed and adjusted by the Company from time to time.
