- 2.1 These China Connect Terms highlight only certain key features applicable to China Connect as of the date of these China Connect Terms. Any trading in China Connect Securities will be subject to the China Connect Rules and all Market Requirements, including, without limitation, any applicable requirements and/or restrictions pursuant to China Connect as may be amended from time to time. These China Connect Terms do not purport to cover all the rules, requirements and features relating to China Connect and all Market Requirements. The Customer shall be fully responsible for understanding and at all times complying with all Market Requirements as amended from time to time and for any consequences, risks, losses or costs of Northbound trading. In addition and without prejudice to the generality of the Agreement, the Customer shall at all times comply with the Market Requirements and all such trading restrictions applicable to China Connect. HSBC Broking Securities shall not be under any obligation, or assume any responsibility, to advise the Customer on any of the Market Requirements. The Customer should refer to the HKEx website and the SFC website relating to China Connect as updated from time to time and other relevant sources for detailed information.
- 2.2 In addition, HSBC Broking Securities shall have the right to apply any procedures or requirements in respect of any trading in China Connect Securities pursuant to China Connect which HSBC Broking Securities determines in its absolute discretion to be necessary or desirable to comply with Market Requirements. - 2.3 In addition and without prejudice to any of HSBC Broking Securities’ rights under the Agreement, HSBC Broking Securities may, in its absolute discretion and without further notice or demand, refuse to execute any instruction given by the Customer, if (for example, and without limitation):
 - 2.3.1 such instruction given by the Customer is not compliant with any Market Requirements or if HSBC Broking Securities reasonably believes that such instruction given by the Customer may not be compliant with any Market Requirements or if HSBC Broking Securities is required by SEHK not to accept such instruction;
 - 2.3.2 in respect of any instruction given by the Customer to make a Northbound sell order, HSBC Broking Securities determines in its absolute discretion that the Customer does not have sufficient securities at the time of such instruction to settle the delivery obligation; or

- 2.5 Under the laws of mainland China, the relevant China Connect Market may reject a sell order if an investor does not have sufficient available China Connect Securities in its account. SEHK will apply similar checking on all Northbound sell orders at the Exchange Participant level to ensure there is no overselling by any Exchange Participant ("**Pre-Trade Checking**"). Accordingly, the Customer will comply with any requirements relating to Pre-Trade Checking required by the China Connect Authorities and/or as notified to the Customer by HSBC Broking Securities. The Customer will in addition ensure there are sufficient available China Connect Securities in the Customer's account to cover any proposed sell order.

In addition, HSBC Broking Securities may in its absolute discretion reject the Customer's sell order (in whole or in part) if for any other reason HSBC Broking Securities considers that there is or may be non-compliance or potential non-compliance with Market Requirements. Any risk, loss or cost resulting from non-compliance or potential non-compliance with Pre-Trade Checking and/or any relevant Market Requirements shall be borne by the Customer.

- 4.2 Where HSBC Broking Securities holds any funds on the Customer's behalf, if the Customer instructs (a) Northbound buy orders only or (b) both Northbound buy orders and other buy orders (in respect of Securities other than China Connect Securities) and if the Customer does not have sufficient Renminbi funds in its account to settle all such orders and all payment obligations in relation thereto:
 - 4.2.1 it authorises HSBC Broking Securities to convert any funds in any other currency which HSBC Broking Securities holds on its behalf into Renminbi for the purposes of settlement and/or payment thereof; and
 - 4.2.2 HSBC Broking Securities may reject all such orders or process only one (1) or some of such orders with the available Renminbi funds in the Customer's account and HSBC Broking Securities may in its absolute discretion decide which of the buy orders to process without regard to the sequence in which the orders were placed by the Customer.
- 4.3 If HSBC Broking Securities receives any funds arising from any China Connect Securities which HSBC Broking Securities holds for the Customer and HSBC Broking Securities does not hold any cash account for the Customer in the same currency as the funds received, the Customer authorises HSBC Broking Securities to convert such funds into the currency of, and credit such funds to, any cash account that HSBC Broking Securities holds for the Customer as determined by HSBC Broking Securities in its absolute discretion.
- 4.4 Notwithstanding any provisions in the Agreement, where it is necessary to convert one (1) currency to another pursuant to these China Connect Terms, such conversion may be carried out by HSBC Broking Securities in a commercially reasonable manner without prior instruction from or notice to the Customer at the prevailing market rate of exchange between the two (2) currencies.

- Although the transfer of the China Connect Securities precedes the transfer of cash, under the China Connect Service, the title to China Connect Securities will not be released until the receipt of confirmation of payment. Accordingly, for the purpose of contract notes, the settlement date would be T + 1 day when both the securities and the cash are settled or, where the purchase is pre-funded, the settlement date would be the date on which the securities are released from hold (usually on T day).
- 4.8 Any loss, risk or cost which may result to the Customer directly or indirectly from any actions taken by HSBC Broking Securities pursuant to this Clause 4 shall be borne by the Customer.

- 5.2 Where China Connect Securities owned by the Customer that are the subject of a Forced-sale Notice have been transferred from the holding of the Clearing Participant that settled the relevant Northbound buy order (the "**Original CP**") to another Clearing Participant or custodian (the "**Recipient Agent**"), the Customer hereby authorises HSBC Broking Securities to instruct the Recipient Agent on behalf of the Customer to return the relevant China Connect Securities to the Original CP for sale and liquidation in accordance with Market Requirements. The Customer also undertakes to inform the Recipient Agent of such authorisation and, where required, to instruct the Recipient Agent to act accordingly.

The "short swing profit rule" requires the Customer to give up/return any profits made from purchases and sales in respect of China Connect Securities of a particular mainland China Listco if (a) the Customer's shareholding in such mainland China Listco exceeds the threshold prescribed by the relevant China Connect Authority from time to time and (b) the corresponding sale transaction occurs within the six (6) months after a purchase transaction, or vice versa. - 6.4 Where the Customer pre-allocates China Connect orders across funds or clients which the Customer manages, HSBC Broking Securities may offer Average Pricing for such orders notwithstanding such orders may be executed at different times during the same Trading Day. Where Average Pricing applies, each fund or client will be allocated China Connect Securities (or their proceeds) at the same averaged price, which may be higher or lower than the price which such fund or client would have paid or received had the orders been processed individually and in the order submitted directly or indirectly to HSBC Broking Securities. Neither HSBC Broking Securities nor any Related Person will be responsible for any such difference in pricing or any loss or risk arising from the application of Average Pricing.
