Everyone has their own desired retirement lifestyle and the associated expenses vary depending on the living standards they want to maintain.

Retirement lifestyles can range from simple to affluent. Some picture simplicity, living plainly with enough savings to cover their basic expenses. Others long for a modest life, with a moderate nest egg to see them into their golden years. Many envision a comfortable and worry-free lifestyle, while for a few, a life of affluent jet-setting around the world beckons.

Whichever lifestyle you prefer, what you save for retirement is key to achieving your goal.

"HSBC Retirement Monitor" provides the objective figures of four lifestyles (basic, modest, comfortable and affluent) in order to reflect the actual spending pattern of different lifestyles of Hong Kong retirees. To support you on retirement planning, the "HSBC Retirement Monitor" include detailed spending of different items such as food, housing and utility bills for retired singles and couples at both early stage and later stage of retirement.

Let's start by considering your potential expenses when you retire.

指標如何整合預算及所需總金額? How were the budgets and required totals put together?

「滙豐退休策劃指標」由滙豐強積金委託澳洲退休基 金協會 (The Association of Superannuation Funds of Australia) 進行一系列研究及分析。

指標經過廣泛研究收集到的本港特定商品及服務價格數 據與本港退休人士的消費模式資料互相整合,加上參考 香港特別行政區政府公布有關不同收入及年齡組別的住 戶開支統計數字,並以此為基礎編整各個預算案例。編 整數據時亦已考慮政府統計處發表有關反映最新物價變 動的消費物價指數。

本報告根據截至2023年12月的數據編寫。滙豐退休策 劃指標將每季度更新一次,以反映商品及服務的價格 轉變,以及退休人士因此作出消費習慣上的變化。

預算及假設只反映典型開支及消費模式。個別單身人士 或二人的消費習慣及生活所需不盡相同。但預算案例的 整體數字及分項數字可作為參考,助你因應個別消費項 目的預算開支作出調整(例如某些退休人士需要預留額 外開支作供養親屬用途),從而制訂具體預算規劃。

預算雖已反映一般開支所需,退休人士仍須預留一筆備 用金,以應付其他非經常性額外開支。 The "HSBC Retirement Monitor" was commissioned by HSBC MPF with The Association of Superannuation Funds of Australia (ASFA) conducting the research and analysis.

The budgets were put together through extensive research on the price of specific goods and services in Hong Kong and on the spending patterns of Hong Kong retirees, together with the statistics from the Government of the Hong Kong Special Administrative Region on household expenditure for various income and age groups. The figures take into account recent price changes, as reflected in the Consumer Price Index published by the Census and Statistics Department.

The figures in the report are based on data as of December 2023. The HSBC Retirement Monitor will be updated quarterly to reflect changes in the price of the various goods and services and the subsequent changes in spending required by retirees.

While the budgets reflect typical costs and quantities purchased, specific individuals or couples will have different spending patterns. However, the overall figures and their breakdown will be a reference and may potentially assist you to formulate your own budget. Individuals can and do trade off spending in one area against another, and some retirees may have additional expenses, such as dependants.

These budgets relate to ordinary expenditure; allowances should be made for any unforeseeable spending.
