

## **HSBC Premier Elevate – Future Planner**

You scored pretty high on that exam.

I'm getting there.

It's natural to worry about your daughter, even when she does well in her studies.

Have you decided on a university yet?

Yup! I'm going to study Food Science in Paris  
and make my name as a five-star chef!

So, with my daughter's great aspirations,  
can I support her ambitions as well as my own throughout different life stages with my current finances?

With the help of HSBC Premier and the Future Planner tool,  
I can set my goals and adjust them as I need to.  
It simulates and analyses various scenarios based on my wealth,  
and gives me total clarity on how to achieve my goals.  
My RM also helps me take advantage of opportunities through securities, bonds and other wealth solutions,  
allowing me to stay ahead of everything.

Dad! Try this!

Delicious! You're gonna cook up a great success even over there.
