

Jade: How far would we go for the sake of our children?

Mark: For them, Mars, the Moon, you name it.

Jade: Guess how long it took to apply for UK schools? There's online research, forms to fill and other application matters. It took ages! Shouldn't you say thank you?

Mark: Thanks!

Jade: After all that, we still have to create a local account for all of our expenses. Thankfully, with HSBC Premier we can open an account in the UK from Hong Kong.

Mark: Very convenient!

Jade: and hassle-free!

Jade: Sean's mature enough to study in Australia. That leaves us with our two younger sons.

Mark: I wanted to send them to a boarding school. But it worries me that they're still young.

Jade: I would miss them so much too! And they would miss us!

Mark: I would miss you too!

Jade: Then let's go with them! After finding the right schools we must find the right house.

Mark: And make a lot more money.

Jade: This is why we consulted our RM regarding our children's saving plans and education funds. And better manage our finances within budget.

Mark: You're always so smart!

Mark: I used to save everything except money. Now as a father, spending frivolously is no longer an option.

Jade: You definitely deserve a praise. You've been buying less ever since.

Mark: Of course! We're role models for them in setting good examples on how to manage our finances.

Jade: That's why I have helped them open savings accounts to teach them to save at a young age. What do you think?

Mark: I'm Mark.

Jade: I'm Jade. We've been HSBC Premier customers for 23 years!
