

Mimi: From that very first stitch at the school in UK to tying off my embroidery on Kate Middleton's bridal gown. It all took a lot of hard work. But I made my dream come true. I realised my dream quite late in life. I hope my children will achieve theirs earlier.

Now, my daughter's going off to study in the UK. Of course, I want only the best for her. With HSBC Premier, I can open a UK bank account ahead of time, from Hong Kong. That way, she'll be able to withdraw cash as soon as she gets there.

Livia: My classmates said if you open an account after you arrive, it could take weeks to get money out.

Mimi: Don't worry, I already opened an HSBC Premier for Next Generation account for you, so you can enjoy Premier's services. And then I opened a UK account for you, so you can take this one ATM card with you anywhere.

And, if you need it, I can instantly send money to you online, free of charge. Now you can go wherever you want without worrying.

Livia: Can we go together?

Mimi: As long as you're a Premier customer, you can open a free HSBC Premier for Next Generation account for your children aged 18 to 28 – giving you all the peace of mind of global Premier support.

Mimi: I am Mimi.

Livia: I am Livia.

Mimi: We both use HSBC Premier.
